Inspections & Site Event Management Benefits

LicenseHQ tracks the entire incident and inspection life cycle — from initiation to a successful resolution — including the event/inspection itself, violations, plans of action, litigation, corrective measures taken, and payments.

- Quick access to information and documents lets teams get more done in the same amount of time

- Automated notifications make field personnel aware of upcoming inspections or site visits and gives them time to prepare

- Increased success rate of incident resolutions by giving visibility into and coordinating team actions

- Easier tracking of ongoing litigation, or incident follow-up

- Forecast workload and identify "problem children" as system helps identify repeat offenders and track trends

- System flexibility adapts to your internal procedures, so you don't have to change your whole process after implementing

- Audit log gives you peace of mind over data integrity and changes to your records

- Smarter search functionality helps reduce search times

- Automated report distribution makes end-of-month, quarterly, annual reporting a breeze

One client was able to minimize their risk and eliminate thousands of dollars in attorney and consultant fees utilizing our out-of-the-box system tools.
