

Personnel Management Benefits

Manage the licenses and certifications required for your employees – regardless of whether they are mandated by regulatory authorities or company policy. Simplify the processes surrounding your officer and personnel compliance to save you time, and minimize license exposure.

- System flexibility allows you to associate personnel with multiple companies, sites, licenses, and license tasks
- Track data required by professional licenses on personnel records in a single solution, no spreadsheets required
- Automated notifications help you stay on top of all upcoming licensing deadlines – renewals, payments, and all supporting tasks
- Configurable dashboard helps to proactively identify at-risk licenses or certifications
- Eliminate errors and inconsistent reporting
- Share data across departments and compliance teams
- Slash the time and effort associated with payment processing
- Minimize time spent updating licenses with new entity or personnel data
- Going paperless cuts down on document storage costs, removes the need for file cabinets, and is eco-friendly
- Generate reports quickly and easily
